

# Experience a State of the Art Collaboration Room

Connect and engage with physically present and remote participants in an **immersive hybrid environment** designed as a studio experience.

Host your meeting, lecture series, product launch, webinar, training session, seminar, roundtable, workshop or masterclass within the Stoke collaboration room.

## BUILD YOUR EXPERIENCE

### CLASSROOM

Deliver lectures or presentations in an immersive learning environment that provides an engaging experience for both participants and presenters.

### MEETING ROOM

Unite in-room and remote participants within a collaborative working environment to help teams engage and communicate on a global scale.

### BOARD ROOM

Conduct board meetings or strategy sessions in a secure, private environment fit for executives and key stakeholders.

### TRAINING ROOM

Organize and execute training sessions using an innovative participant-centered learning environment that promotes real-time engagement and active participation.

### SITUATION ROOM

Assemble key stakeholders for strategic decision making sessions that require priority in a private and secure environment.

**stoke.**

**REMOTE PARTICIPANT WALL**

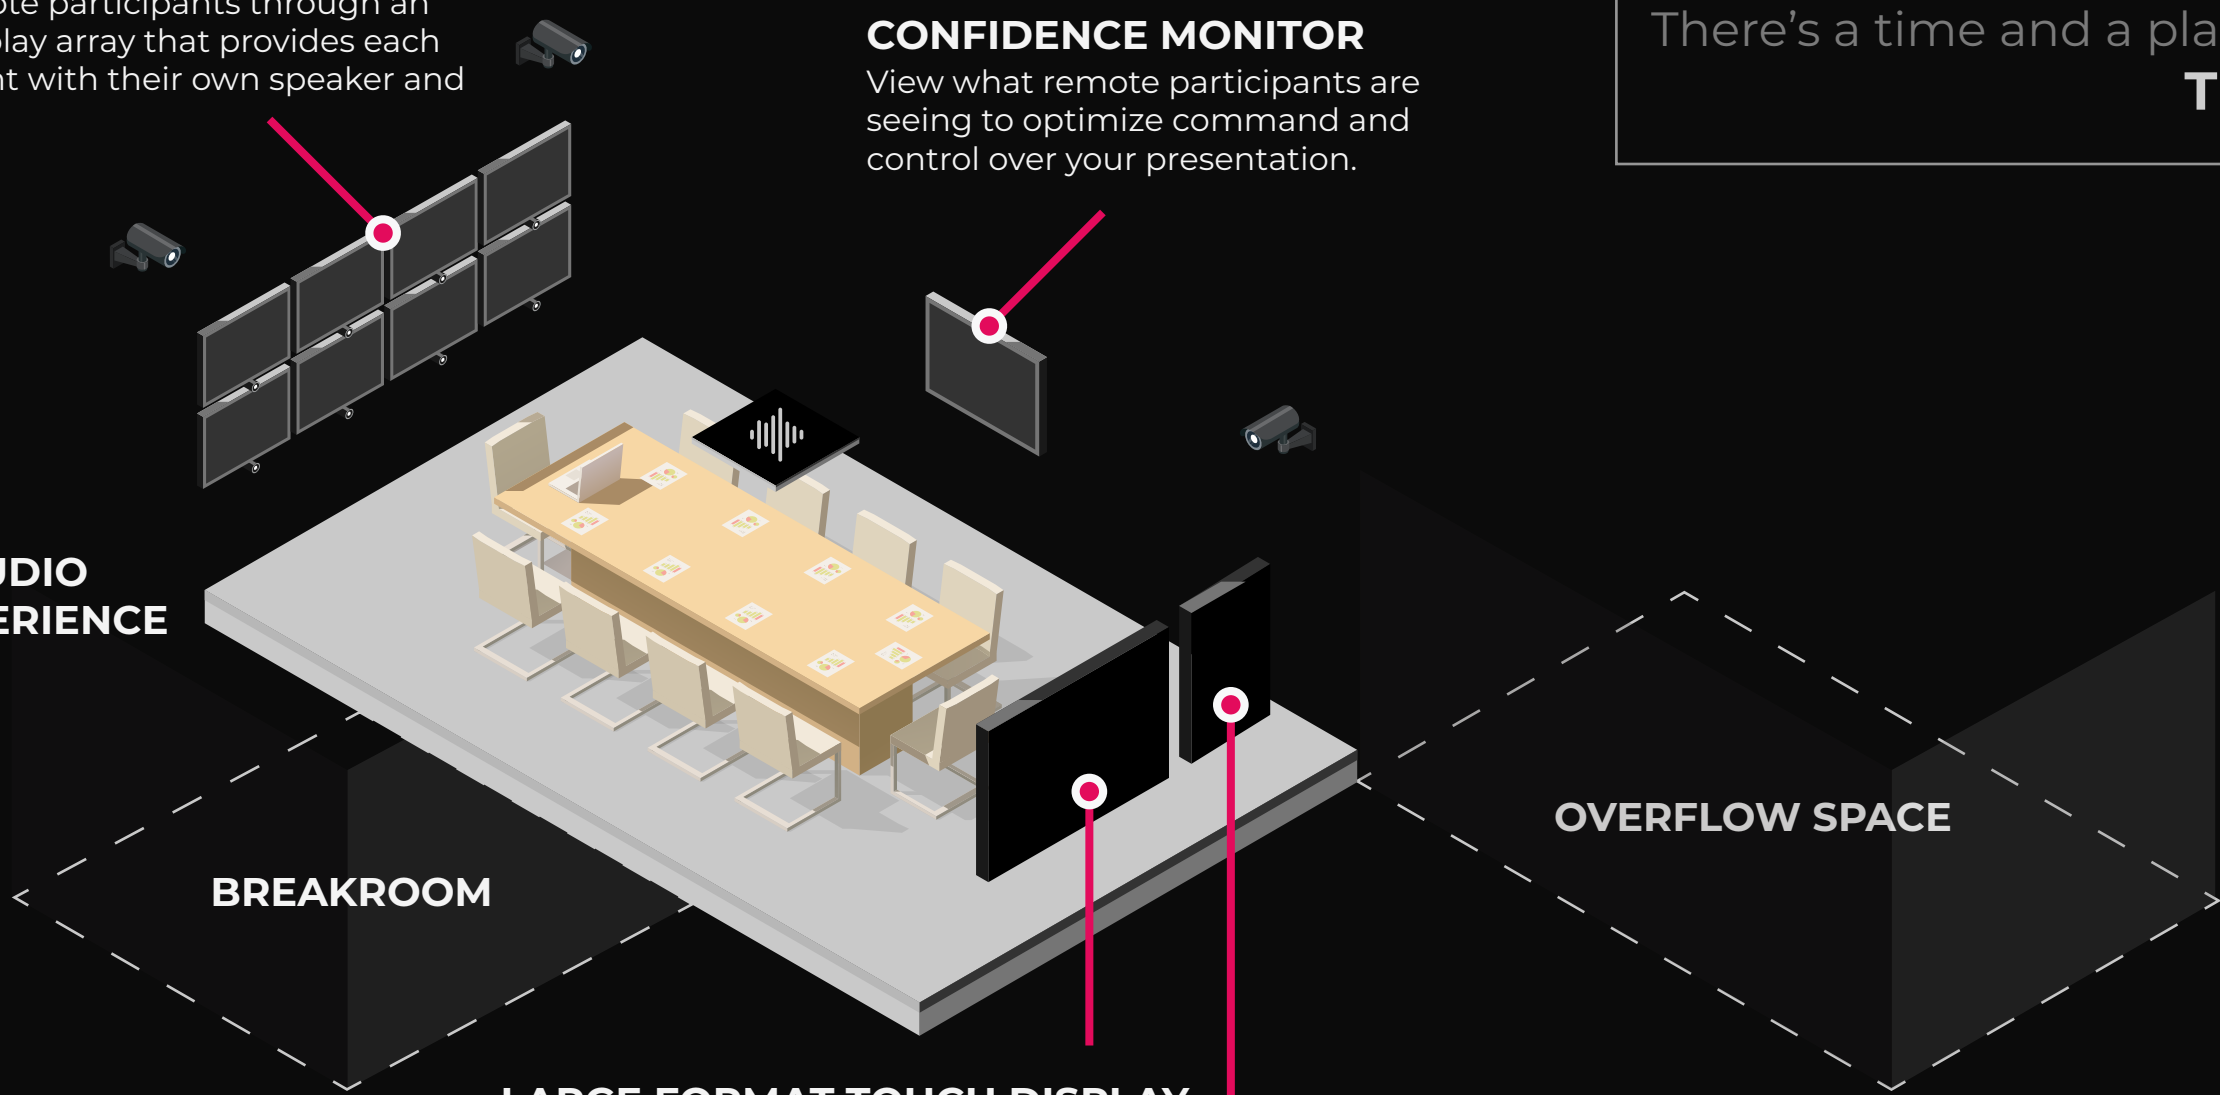

Experience personalized communication with remote participants through an eight display array that provides each participant with their own speaker and camera.

**CONFIDENCE MONITOR**

View what remote participants are seeing to optimize command and control over your presentation.

There's a time and a place for video conferencing.  
**This is a room for ideas.**

**HIGH FIDELITY AUDIO AND VISUAL EXPERIENCE**

**BREAKROOM**

**OVERFLOW SPACE**

**LARGE FORMAT TOUCH DISPLAY**

Share content, images, videos or an interactive whiteboard using an 85" touch-enabled display.

**REMOTE PRESENTER DISPLAY**

Augment your room experience by inviting guests and experts to participate as virtual presenters during a session.
